## Education Performance Indicators — 2025 Summary

The Tertiary Education Commission (TEC) Education Performance Indicators (EPIs) measure student retention, course completion, and qualification completion. The figures below compare NZCC's 2025 results with the national average for Level 7 degree providers (TEOs) and show NZCC's trend since 2022.

### NZCC vs sector average by ethnicity (2025)

### NZCC's four-year trend (all students, all ethnicities)

| Year               | Course Completion | Qualification Completion | Retention |
|--------------------|-------------------|--------------------------|-----------|
| 2022               | 95.9%             | 84.9%                    | 94.7%     |
| 2023               | 96.7%             | 82.9%                    | 95.6%     |
| 2024               | 96.0%             | 83.8%                    | 94.7%     |
| 2025               | 95.1%             | 86.8%                    | 89.4%     |
| All TEOs 2025 avg. | 87.1%             | 61.3%                    | 80.0%     |

NZCC continues to outperform the Level 7 degree sector average across retention, course completion, and qualification completion, reflecting sustained investment in academic support and student success. Source: TEC Education Performance Indicators, 2025.
